OFFICE OF PUBLIC LIBRARIES
AND INTERLIBRARY COOPERATION
DIVISION OF SPECIAL SERVICES
MINNESOTA DEPARTMENT OF EDUCATION

Services of the Office of Public Libraries and Interlibrary Cooperation (OPLIC)

The OPLIC program includes consultant, advisory and guidance services to librarians, library boards, public officials, and citizen groups interested in libraries and library development. OPLIC also administers the state program for library development through grants from combined state and federal funds to aid with the establishment of public library services in areas which are presently unserved or which are inadequately served. Inquiries concerning these services and the aid program should be addressed to the Director, Office of Public Libraries and Interlibrary Cooperation, 301 Hanover Building, 480 Cedar St., St. Paul, Minn. 55101. Phone: 612/296-2821.

Minnesota Public Library Systems 1981

Introduction by
William G. Asp

This issue of Minnesota Libraries reports public library statistics for the library fiscal year ending during the calendar year 1981. In most cases, the library fiscal year coincides with the calendar year, and in all cases the statistics are comparable with those published for more than eighty years.

Statistics were gathered on forms distributed in January, 1982, to all Minnesota public libraries. Information reported is that supplied by each library. The Lake Agassiz Regional Library regretably had not filed its report when this issue went to press. So that summary information could be tabulated, some data was collected by telephone from Lake Agassiz Regional Library staff but no detailed data was available.

Returned forms were checked by Jan Feye-Stukas, Cherie Eichinger, Ruth Miller and Alan Lewis. Some 200 data categories were loaded into an Apple II Microcomputer using DB Master software for tabulation. Charts were prepared on an OKIDATA Microline 82A Serial Dot Matrix Printer.

Space does not permit publication of all available data. Persons interested in specific tabulations should contact Jan Feye-Stukas at OPLIC. Persons noting errors in an entry should report the errors to OPLIC.

The Population Served

At the end of 1981, the number of Minnesota citizens served by tax-supported public libraries was 3,942,603, or 96.7% of the state's population. Of the population with public library service, 97.9% are served by libraries participating in regional public library systems.

There were 325 public library service outlets in 1981, one fewer than in 1980.

Minnesota's public libraries are organized into 134 administrative units – regional, county and city libraries. Sixteen counties remain which have no countywide library service. The population having no tax-supported public library service decreased to 133,367.

The Supply of Library Materials

Public libraries report growing collections of books, magazines, disc and tape recordings, 16mm and 8mm films, art prints and other audio-visual items. The 1981 figures include all of these items as well as vertical file items which were excluded in 1980. Unfortunately, because data was not available from the Lake Agassiz Regional Library, no statewide collection total or growth rate could be calculated.

The Sharing of Library Resources

Minnesota's public libraries continue to depend on resource sharing networks to obtain for their users needed items which are in the collections of other libraries. Participating libraries may obtain materials from other libraries within their regional public library system, from metropolitan public libraries through the Public Library Access Network (PLANET) headquartered at the St. Paul Public Library, and from academic, public and special libraries under OPLIC's contract for services of the Minnesota Interlibrary Telecommunications Exchange (MINITEX).

Public libraries reported a total of 165,748 requests sent to regional or statewide systems, an increase of 4.8% over 1980. Of this total, 146,252 or 88% of the requests were filled. Regional systems supplied 89,556 items, or 54% of the total. PLANET supplied 23,901 items, or 14% of the total. MINITEX supplied 19,720 items or 12% of the total. Other sources accounted for 13,075 items, 8% of the total.

It is interesting to note that the volume of interlibrary loan activity accounts for only about one-half of one percent of the total circulation of Minnesota's public libraries. While the percentage is small, the availability to library users of materials beyond the local library is of incalculable value and importance.

Special Services of Public Libraries

A number of Minnesota public libraries report specialized services for persons having special needs. Eighty-eight public libraries report that they serve persons who are homebound, and 51 report specialized services for persons having handicapping conditions. Thirty-six public libraries report serving persons in correctional institutions. Thirteen public libraries report having services specifically for migrant workers.

Ethnic minorities receive specialized services in some public libraries. Special services for Asian refugees were offered in 9 public libraries, and four public libraries reported specialized services for American Indians.

Public Libraries and Cable Television

Interest is growing among public library trustees and personnel in public library involvement in cable television. In two libraries, Cloquet and Two Harbors, the library operates the local public access cable channel. The Anoka County Library also has a library channel operated from the Fridley Library. Six Minnesota public libraries report that they produce programs for cable television. Six report that they provide training to the general public in video production, and nine public libraries report that they are involved in cable television in other ways.

The Use of Libraries

Public libraries are used for reference information, informal educational pursuits, browsing, leisure reading, group meetings and numerous other purposes. In most libraries, many of these uses are unrecorded.

Library circulation is only one indicator of library use. It is the only measure used in every Minnesota public library, so it is the only available indicator of public library use statewide. Circulation on a statewide basis can give only a gross indication of library use and increases or decreases from year to year.

Public libraries report that Minnesotans borrowed 25,626,370 items in 1981, an increase of 5.2% over 1980. Per capita circulation grew from 6.1 items in 1980 to 6.5 items in 1981. This figure is still somewhat below the per capita circulation in the 1930s, but that decade witnessed the highest per capita use of public libraries in our history. Periods of reduced personal income and increased unemployment have always been accompanied by increased use of public libraries.

Some Minnesota public libraries, using statistical samples, estimate the use of materials in the library which are not checked out. Libraries reporting in-library circulation estimated a total of 4,408,000 items used in their buildings.

Public Library Funding

Public library service in Minnesota continues to be financed primarily from county and city funds. Public library receipts in 1981 totaled $46,155,281, an increase of 9.5% over 1980. Local support, which accounts for 84% of the total, increased 11.4%. State and federal funds provided 10% of the total, increased 6%. The remaining 6% is miscellaneous sources of income such as grants, fines, fees, gifts and interest. Contrary to widespread opinion, fines and fees accounted for only 1.62% of total public library income, and gifts accounted for only three-fourths of one percent.

Local receipts per capita increased from $8.92 in 1980 to $9.83 in 1981, an increase of 9.2%. With some notable exceptions, local support tends to be highest in the seven county Twin Cities metropolitan area. Excluding these counties, average local support per capita in 1981 was $5.87. Clearly there is a general need for increased financial support for Minnesota public libraries.

Receipts reported are only for operating purposes, and as in previous years exclude capital expenditures. Also excluded are indirect receipts or in-kind contributions, the estimated dollar value of services paid by cities or counties for expenses such as CETA employees, utilities, space in city-owned buildings, etc. Often it is extremely

difficult to estimate the value of these indirect receipts. Estimates for twelve library systems and twenty-four unaffiliated libraries reported for 1981 total $1,216,437, an increase over 1980.

Public library expenditures for capital outlay in 1981 was reported to be $3,677,378, a substantial drop from the $9,215,216 reported in 1980. Most of the 1981 expenditure is for building or remodeling projects in Minneapolis, Hennepin County, Dakota County, Duluth, Owatonna and Arrowhead Library System.

Public Library Expenditures

Operating expenditures of Minnesota public libraries in 1981 totaled $44,709,426, an increase of 10% over 1980. Per capita expenditures for the population served increased from $10.31 to $11.34, also an increase of 10%.

Expenditure patterns in 1981 resemble closely patterns in 1980. Expenditures for personnel were 66.7% of total expenditures and increased about 10%. Expenditures for materials were 15.5% of total expenditures and increased 7.1% to a total of $6,907,811.

Public libraries reported spending $5,188,980 for books, $655,778 for periodicals, $214,261 for microforms, $58,501 for vertical file materials, $688,145 for all formats of audio-visual material, $108,061 for data base searching and interlibrary loan, and $14,085 for all other materials. Library materials budgets still appear to be losing the battle with inflation.

Arrangement and Content of Tables

While the appearance of the tables differs from previous years because they were printed from a microcomputer, the arrangement and content is similar to reports in previous years. The summary table provides totals for each regional public library system and for the unaffiliated public libraries. Totals for the state are shown in this table.

Regional public library systems are reported in alphabetical order with system totals at the beginning. Data is presented for each branch of the consolidated regional public libraries and the county and city libraries. For the federated regional public library systems, system totals are given first followed by data for system operations reflecting activities at the system headquarters. Member libraries of federated systems are reported next in alphabetical order. Bookmobiles are listed with their circulation and the total number of hours they are available for public use. Circulation of books by mail programs is included in total system circulation. All per capita amounts were calculated using population data from the 1980 census. For individual libraries, per capita amounts were calculated using the population for the governmental unit primarily responsible for financing the library.
